As strange as it may seem for an area surrounded by water, drought is becoming a topic of interest in Hampton Roads. Many localities are seeing an increase in the number of days of drought and you may be feeling the pinch if you are irrigating your lawn and gardens. Planting drought-tolerant plants, especially natives, can help your wallet and the environment. In this lecture, we will discuss the characteristics of drought-tolerant plants as well as outline different plants for special areas.

Date Wednesday, June 19, 2024

Time 6:30—7:30 p.m.

Place Portsmouth Public Library
Churchland Branch
4934 High Street West
Portsmouth, VA 23703
